

TAMAQUA.

A Number of Very Interesting and New Paragraphs. "Barkis is willin'" and Frank P. Spiese wants the Democratic nomination for Senator in this district. All factions here seem to be unanimously in favor of the idea. Spiese was promised the nomination by the Democrats of Mahanoy City, Shenandoah and adjacent towns four years ago and he has been counting on the promise ever since. He is well known and popular throughout the district and would, like his father, be a dyed-in-the-wool Democrat—full yard wide, and has never been anything else, so to speak, and he has been counting on the score of consistency. He will be a fitting successor to Senator Monaghan, if the times do not change and a tidal wave does not carry George of Mahanoy City into the chair. Tamaqua people would have preferred Spiese, but the latter's declination published in the Herald the other day is final.

Charles Weddy is spoken of as a fit successor to Representative Folliweiler. With a candidate like "Charley" the Republicans would have a fair chance of carrying this Democratic stronghold. The people of this town—Sleepy Hollow, as some call it—take exception to the insinuations thrown out by a certain county seat journal in regard to them and it may cost the paper many friends. Frank Boyer, of Galeburg, Ill., was in town this week. He likes his new home and would not return here in five or any circumstances. He has a big store, employs many clerks and is doing business at a value of over six figures. By the way, Frank is a non-lawyer of Col. M. P. Fowler, of Shenandoah.

The hard times are keenly felt here. The suspension of operations at Gordon plans by reason of the fire made the appearance of things a little more livelier, by the shipment of coal through this place.

Miss Annie Fox, an accomplished young lady of town, has gone to Philadelphia, to accept a position.

The settlement of the Wardenship appointment gave much satisfaction to the people here. Commissioner Allen is congratulated on the good sense he showed in selecting Mr. Dunkelberger.

The Republicans here are divided on the Congressional candidate, the majority being for Mr. Shoener. Mr. Losch's name is seldom mentioned, but Mr. Drumm has many warm admirers.

Second-Hand Goods. People having old furniture or carpets in fair condition can send them to Reese's auction rooms and realize good prices. One day every week will be set apart for the sale of this kind of goods. People who want to quit business can have their entire stock sold in a short time and realize good prices. Call on or address Reese's Auction and Commission House, Dougherty Building, West Centre street. 4-4-tf

The Newspaper Best. Every newspaper knows him and has him on their list. The News Item is not an exception. We have several of him. We propose to get rid of him in just a few weeks.

The fellow who heads the list is Dr. ... who has been going up for nearly \$10.00 on subscription. It's our own fault. A collector to whom we sent the bill writes: "No good. This man is constitutionally opposed to paying bills." So long, Doctor; the next time you get the News Item it will be cash in advance. If we had dropped the \$10.00 bluffing on a pair of dunces we wouldn't say a word, but to be beaten out of it without a show is enough to make a boatman swear. We'll touch up another of 'em next week. —Catawissa News Item. We have a few of the same sort and propose to give their names, spelled in big capital letters, if they don't pay up.

When Baby was sick, we gave her Chamberlain's. When she was a child, she cried for Chamberlain's. When she became Miss, she clung to Chamberlain's. When she had children, she gave them Chamberlain's.

Bear a Mind. John A. Reilly's is the place to get the purest wines and liquors, best beer and ales and finest brands of cigars.

Those who never read the advertisements in their newspapers miss more than they presume. Jonathan Keelson, of Bolin, Worth Co., Iowa, who had been troubled with rheumatism in his back, arms, and shoulders read an item in his paper about how a prominent German citizen of Ft. Madison had been cured. He procured the same medicine and used his own words: "It cured me right up." He also says: "A neighbor and his wife were both sick in bed with rheumatism. Their boy was over to my house and said they were so bad he had to do the cooking. I told him of Chamberlain's Pain Balm and how it had cured me, he got a bottle and it cured them up in a week. 35 cent bottles for sale by Gruhler Bros.

Our better halves say they could not keep house without Chamberlain's Cough Remedy. It is used in more than half the homes in Leeds, Sims Bros., Leeds, Iowa. This is the only medicine in which the remedy is held where it has been sold for years and is well known. Mothers have learned that there is nothing so good for colds, croup and whooping cough, that it cures these ailments quickly and permanently, and that it is pleasant and safe for children to take. 35 and 50 cent bottles for sale by Gruhler Bros.

Special low prices to all in watches, jewelry and silverware at Holderman's, corner Main and Lloyd streets.

A BRILLIANT DEFENSE

Colonel Butterworth's Argument in Behalf of Congressman Breckinridge.

WASHINGTON, April 13.—The defense of Colonel Breckinridge which Ben Butterworth made yesterday is conceded, even by his opponents, to have been one of the greatest speeches ever made in a Washington court. It was effective as a masterpiece of oratory, and was made such largely by the winning personality of the orator. Mr. Butterworth was persuasive, was dramatic, was friendly, copulatory and artful. Whether he was convincing remains to be seen when the twelve men who are to pass upon the case return their verdict. Men are saying that if the jury hang fire Colonel Breckinridge can thank the eloquence of his winning Quaker friend for it. Particularly is this the expression of the lawyers, who heard the speech, and it was probably the finest compliment the ex-congressman could have received that so many of his professional colleagues were willing to stand all day to listen to his utterances.

For nearly nine hours Major Butterworth carried the speaking part in the great case. He conjured by the name of mother, the fireside and American womanhood most effectively, making it appear that all of these forces were enlisted on the side of his client. Through all the speaking the white haired member of congress from Kentucky sat facing the jury, much of the time with his face shaded by his hand, occasionally nodding assent to the points scored by the speaker. The English Lutheran choir service on next Sunday evening will be taken entirely from Mozart's Twelfth Mass. Reading collieries in this district work to-day.

Triple Murder in Texas. DEXTER, Tex., April 13.—Near Collingsburg yesterday Frank Crews, a farm hand, shot and mortally wounded his employer, Thomas Murrell, in a quarrel over wages. Mrs. Murrell rushed to her husband's assistance and Crews cut her throat, killing her instantly. Murrell died soon after.

McKane Must Stay in Sing Sing. NEW YORK, April 13.—Judge Lacombe, of the United States circuit court, rendered his decision on the habeas corpus argued before him by John V. McKane's lawyers last Friday for a writ of habeas corpus, on the ground that it was contrary to the provisions of Section 706 of the revised statutes of the United States to have him confined in Sing Sing while the appeal in his case is pending in the United States supreme court. The motion for his release from Sing Sing is denied on the ground that there is no violation of the constitution or statutes of the United States by enforcing the sentence passed upon McKane.

A Sure Fortune for Zimmerman. NEW YORK, April 13.—Arthur A. Zimmerman, the champion amateur bicyclist, who is to go to France to enter the professional ranks, is to receive \$10,000 cash the day he reaches Europe to race as a professional. In addition to that Troy states that Zimmerman is to receive \$150 for each event in which he starts, in addition to the prize money which he may win. At each race meet where he has been advertised and where he actually rides he is to receive 25 per cent of the net gate receipts.

Vault Robber Paroled in Jail. SAGINAW, Mich., April 13.—The latest sensation in the Wells-Stone vault looting case was sprung yesterday, when a third warrant was issued for Newell B. Parsons, the ex-bookkeeper. The complaint alleges that Parsons abstracted from the vault railroad bonds payable to bearer to the value of \$462,000. Those bonds were the property of the firm. Parsons' bail was placed at \$25,000, which he was unable to give. The bonds were recovered in Grand Rapids.

Dr. Meyer's Second Trial. NEW YORK, April 13.—The second trial of Dr. Henry T. C. Meyer, who is indicted for murder in the first degree on a charge of poisoning Ludwig Brandt in this city in the spring of 1892, was set down before Recorder Smythe in Part II, general sessions, for yesterday. The case was called at noon, and one juror was secured, when the court adjourned for the day.

Clearfield Miners Will Strike. PHILIPSBURG, Pa., April 13.—The miners in the Clearfield and Beech Creek regions will obey the order of the national organization and suspend work on the 1st, although the local leaders are of the opinion that the suspension comes a week too late. The number of miners in Clearfield county is upwards of 7,000.

Death of Marquis de Talleyrand. FLORENCE, April 13.—The Marquis de Talleyrand, formerly the Duke de Dino, is dead. M. de Talleyrand was twice married to American women, from the first of whom he was divorced. Talleyrand was descended from the famous Prince Talleyrand, who was Napoleon's first prime minister.

Canadian Railroaders May Strike. MONTREAL, April 13.—A cablegram has been received from Sir Henry Tyler, ordering a 10 per cent reduction in the wages of all employees on the Grand Trunk railway. If the order be enforced it is not unlikely that a repetition of the great strike of 1878 will take place.

GET NEW BLOOD IN APRIL.

The Body a Machine that Cannot be Stopped for Repairs--Paine's Celery Compound Feeds Its Shattered Nerves, Purifies the Blood, Makes Refreshing Sleep Possible.

March winds and April showers sweep and scour the earth and clear the air of winter impurities, making it sweet and wholesome.

The same thing takes place in the body, the pores open and the blood that creeps in winter now rushes through the arteries in a fuller, stronger stream.

Now is the great season of purification, of new life, new hope, new ambition. It is the best time to get well. Spring is hopeful, and the invalid gets well quicker when hopeful than when despondent.

Thousands of people throughout the country are this month taking Paine's celery compound—the great spring medicine that makes people well.

"What March does not kill may be done for by April," says an old adage. The nine weeks from Feb. 1 to May 1 develop the hidden germs of diseases inside the body and without. For health's sake back yards, cellars, and the dark closets and corners must be cleaned out, and for health's sake every one needs to take a spring medicine like Paine's celery compound; years have shown the wisdom of doing so.

April has always been set down as the best time to remove impurities from the blood and to regulate the nervous system. The formula for Paine's celery compound was given to the world by Edward E. Phelps, M. D., LL. D., while he was still active professor in the Dartmouth medical school. A remarkable nerve food and blood purifier, it is the most valuable contribution to the world's progress that American college influence had sent forth.

Its power of restoring lives of countless men and women from feebleness and despair to strength and usefulness is known in every part of the country. It has added years of active, joyous existence to thousands of weak, tired-out, ailing women who thought themselves doomed to be invalids for the rest of their days. Paine's celery compound cures thoroughly and finally rheumatism, neuralgia, dyspepsia, diseases of heart, liver, and kidneys, and every form of nervous weakness. It cures as nature cures, by feeding vital inmost parts of the body, the blood, and nerves.

All the parts of the body are adjusted with the greatest nicety, and a derangement of one affects the whole. We cannot stop this complicated mechanism for repairs, because we do not know the secret that would set it going again. The repairs must be made when it is in motion.

It is in sleep that the machine goes slowly, the heart beats less rapidly, the blood circulates less quickly, the nerves rest, the muscles relax, and each gains vigor in the only way it can—by sleep and rest. Paine's celery compound quiets and regulates the nerves by supplying the material for their repair, and the tired, exhausted man and woman, on the verge of breaking down, gets sleep and the means of recovery to health and strength.

All over the country Paine's celery compound is convincing overworked business men, anxious housekeepers, women behind counters and in offices, school teachers, and all who use their brains excessively, that the unqualified praise from physicians and others, who are careful of what they say, is none too strong for this great remedy that is making so many well and strong.
